

1.0 Health and Safety Policy

Alongside associated procedures in 1.1 to 1.22 Health and Safety, this policy was adopted by Caterpillars Preschool in October 2025.

The Designated Health and Safety Officers are ;

Birch – Sharon Butters

Marks Tey – Charlotte Ayers

Aim

Caterpillars Preschool settings are suitable, clean and safe places for children to be cared for, where they can grow and learn. We meet all statutory requirements for health and safety and fulfil the criteria for meeting the Early Years Foundation Stage Safeguarding and Welfare Requirements.

Objectives

- We recognise that we have a corporate responsibility and duty of care towards those who work in and receive a service from our provision. Individual staff and service users at both Caterpillars Preschool settings also have responsibility for ensuring their own safety as well as that of others. Adherence to policies and procedures and risk assessment is the key means through which this is achieved.
- Insurance is in place (including public liability) and an up-to-date certificate is always displayed.
- Risk assessment is carried out where it is helpful to do so, to ensure the safety of children, staff, parents, and visitors. Legislation requires all those individuals in the given workplace to be responsible for the health and safety of premises, equipment and working practices.
- Smoking and vaping are not allowed on the premises, both indoors and outdoors. If children use any public space that has been used for smoking or vaping, members of staff ensure that there is adequate ventilation to clear the atmosphere. Staff do not smoke or vape in their work clothes and are requested not to smoke or vape within at least one hour of working with children. The use of electronic cigarettes is not allowed on the premises.
- Staff must not be under the influence of alcohol or any other substance which may affect their ability to care for children. If staff are taking medication that they believe may impair them, they must seek further medical advice and only work directly with children if that advice is that the

medication is unlikely to impair their ability to look after children. The setting manager must be informed.

- Alcohol must not be bought onto the premises for consumption.
- A risk assessment (1.1a Generic risk assessment) and access audit (1.1b Access audit form) are carried out for each area as required and the procedure is modified according to needs identified for the specific environment.
- Risk assessments are monitored and reviewed by those responsible for health and safety.
